

# INTERNATIONAL REGGAE ARTIST FASHION / MUSIC ICON

When it comes to fashion, Shade is considered to be one of Jamaica's international style Icons in the Dancehall and Reggae world. Her [cutting edge](#) Black, Green, and Gold braided hair styles and her immaculate glamour pictures dominate the internet. Her fashion sense is raved about by her fans and is heavily monitored in the glossy pages of high fashion Asian Magazines.

Shade is now being dubbed by musical gurus, and fans alike as the next "[Grace Jones](#) who blazed a bright torch on the international cultural Reggae landscape, making the world realize that music such as Shade's isn't only by über stars like Marlene Dietrich alone. An international Reggae star under the moniker of [Shade](#) is now fortifying this Reggae sound".

Most recently, JSP Production released Shade's newest single titled "Coming Back" which has been creating waves in the Reggae industry. Her lyrical content and melody of the record seems to surpass time. The tune embodies the characteristics of a song that will be sung by generations to come. It must be said that, there is much more than just beauty in the SHADE, she is a talented song writer and business minded woman with the determination of one who knows her destiny.

In 2011, Shade launched her album release tour that kicked off in Okinawa, Japan. Traveling through six different cities throughout Asia. For her album release, Shade invited a few Jamaican musician friends to perform live in front of hundreds of adoring fans on the U.S Military Bases in Japan and other local venues.

The self title album "Lifein the Shade" was released worldwide and can be found on the shelves of major distribution outlets in Japan such as Tsutaya, Tower Records, and HMV. "Lifein the Shade" features a mixture of Reggae and Dancehall hits, as well as a cover version of the widely know record "Satta Massagana" originally performed by the Abyssinians. One must note that in 32 years of the Original "Satta Massagana" release, Shade's cover version is the first female version that was release in 2011. This is a ground breaking achievement, one that should not be gone unnoticed.
